

## Little Hearts Matter

### Fundraising Volunteer

Little Hearts Matter is a growing charity. Thanks to advancements in health service care more children with single ventricle heart disease are surviving their palliative surgery but having only half a working heart leaves them with a lifelong disability and an uncertain future.

To be able to provide ongoing and building services the charity is working to strengthen its fundraising. As we receive no government or statutory funding, our fundraising is essential for us to continue our work.

#### **Working as part of the fundraising team, the Fundraising Volunteer's role is to:**

- Assist the fundraising team in the efforts to maximise fundraising
- Support the fundraising team by taking part in tasks in a professional and efficient manner
- Be a fundraising ambassador for the charity
- Generally support the work of the charity

#### **Some of the attributes LHM would be seeking**

- Able to work as part of a small team and liaise with a variety of different people
- Friendly, outgoing, personable
- Willingness to work hard and “muck in” where necessary
- Previous experience of fundraising preferable but not essential
- Knowledge of LHM and its overall aims

If you are interested in becoming a Fundraising Volunteer contact Ian on 0121 455 8982 or email him on [ian@lhm.org.uk](mailto:ian@lhm.org.uk).

Thank you.
